SUMMARY

Full-stack developer with hands-on experience building production-ready web applications using React, TypeScript, and Node.js. Developed an AI-powered ATS resume scoring platform and a developer productivity tool with Chrome extension integration. Proficient in modern JavaScript frameworks, REST API development, and problem-solving with strong DSA fundamentals.

SKILLS

Languages: JavaScript (ES6+), TypeScript
Frontend: React.js, HTML5, CSS3, Tailwind CSS, Framer Motion, GSAP
Backend: Node.js, Express.js, REST APIs, JWT Authentication, Google OAuth
Databases: MongoDB, MySQL, Firebase
State Management: Redux Toolkit, React Context API
Programming: Java, Data Structures & Algorithms
Tools & Deploy: Git, GitHub, Postman, Chrome Extension APIs, Vercel, Netlify

PROJECTS

MAP Aviation – Aviation Career Platform (Freelance) | [Live Demo](#)

React · TypeScript · Redux Toolkit · Firebase · Google OAuth · Tailwind CSS

- Engineered a full-stack aviation career platform with courses, job listings, news, and video content for pilots across India, integrating Firebase for real-time data and Google OAuth for seamless authentication with Redux Toolkit managing state across all feature modules.
- Implemented Paytm payment gateway for membership subscriptions, deployed on cPanel with a scalable feature-based architecture.

Tero – AI-Powered ATS Resume Scoring Platform | [Live Demo](#) | [GitHub](#)

React · TypeScript · Groq API · Context API

- Built an ATS resume evaluation system with ~95% parsing accuracy using custom section detection and PDF/DOCX extraction, powered by a client-side React + TypeScript architecture with Context API.
- Boosted scoring relevance by ~25-30% through keyword matching, formatting checks, and Groq API evaluation; optimized API efficiency by ~40% via rate-limited processing with rule-based normalization to handle inconsistent resume formats.

Stash – Web App & Chrome Extension | [Live Demo](#) | [GitHub](#)

React · TypeScript · Groq API · Context API

- Built a developer productivity platform for managing code snippets with structured storage and categorization, cutting retrieval time by ~30%.
- Implemented JWT and Google OAuth for secure authentication across both the web app and Chrome extension, with tag-based filtering that reduced manual lookup time by ~40%.

CERTIFICATIONS

Software Engineer - Verified Role Certificate	HackerRank
Frontend Developer (React) - Verified Role Certificate	HackerRank
React (Basic) - Verified Skill Certificate	HackerRank

EDUCATION

Bachelor of Computer Applications (BCA)	2023 – 2026
Government Holkar Science College, DAVV, Indore, MP CGPA: 7.5/10	
Schooling	
Class XII – Raghuwansh Public School, Sendhwa, MP 73.6%	2021
Class X – Raghuwansh Public School, Sendhwa, MP 71.1%	2019
